

Unit Lot Subdivision (ULS) - Long

Frequently Asked Questions and Tips

The City of Algona has created customer tip sheets to inform the general public about the City's land use processes, effect of codes and regulations, and commonly asked questions relating to land development and construction projects. These sheets are not intended to be complete statements or advise customers of all applicable codes and regulations.

The codes and regulations may be revised or amended, please consult City staff to confirm your understanding of requirements before beginning work. It is the applicant's responsibility to understand all requirements and ensure the project meets the City's applicable codes and regulations.

What is a Unit Lot Subdivision (ULS)?

A Unit Lot Subdivision - Long is a type of land subdivision that creates ten or more separate lots for each dwelling unit on the specified property. These new lots often take the shape of the specific unit footprint while still applying the applicable site development standards of the parent parcel. This creates more ownership options in the housing market.

When is a ULS - Long necessary?

A ULS - Long applies exclusively towards developing duplexes, triplexes, townhouses or courtyard apartments for ownership of each unit. These new properties would have to apply the same site development standards as the parent parcel.

How long does it take to get a ULS?

The timeline from application submittal: four(4) to six(6) months. However this depends on the responsiveness of the applicant.

What is the application process?

1. A pre-application meeting is required prior to preliminary application submission.
2. Administrative review by Public Works, Planning, Seattle-King County Health and Valley Fire. City staff will then notify applicant of approval decision. If granted, approval will be valid for one year from date of formal notification.
3. Upon approval, staff will issue their decision on the application and schedule a public hearing with the planning commission. Planning Commission will evaluate the application and make a recommendation to City Council for a final decision during a public hearing.
4. The City Council will make a determination on the preliminary application. If approved, a notice is sent to the applicant with conditions of approval and next steps. Approval is valid for five (5) years from the date of formal notice.
5. Applicant submits final Unit Lot Subdivision after all specified improvements have been completed and approved. Unless applicant has filed a performance bond or suitable surety equal to 150% of estimated improvement cost.

Note: This Tip Sheet does not include all codes and regulations that may be applicable to your project. The applicant is responsible for demonstrating compliance with adopted codes and regulations, whether or not described in this document.

6. The city will conduct second administrative review of final application against preliminary ULS and forward final ULS to City Council for final approval.
7. Once issued, applicant must record final ULS with King County Auditor's Office.

What do I need to submit?

All application materials must be submitted in electronic PDF format. Additional materials are potentially required depending on the nature of your application. Please contact the City to confirm if additional materials are anticipated to be required.

A complete ULS - long application includes:

- A Completed and Signed Application
- A Land Use Narrative
- A Title Report dated within 30 Days of Submittal
- A Public Notification Package
- SEPA Checklist
- A Copy of the Survey
- A Copy of the Preliminary Plans

What is a land use narrative?

A land use narrative is the applicant's opportunity to describe the proposed project's intent, design, and operations. The land use narrative should describe how the project meets the city's approval criteria for a ULS. Responses to each of the approval criteria is required and should be answered as completely as possible.

Is a pre-application meeting required?

A pre-application meeting is required prior to the submission of a unit lot subdivision resulting in ten (10) or more units.

What are the approval criteria?

The applicant is responsible for demonstrating how the project meets the following approval criteria, listed in [Chapter 19.22.030 AMC](#).

A ULS - Long may only be granted by the city upon the following findings:

1. The USL will not result in a division with insufficient dimensions or area set forth in land use and health codes and regulations except as nonconforming lots as set forth in Zoning Code;
2. Shall not impair utilities (drainage, water supply, etc) or easement access for vehicles;
3. Shall not impair utilities or easement access for other parcels;
4. Shall not increase non-conforming aspects;
5. Shall not amend existing conditions of approval of previously platted property;
6. Shall not include property not annexed by the city;
7. Shall not extend or increase the use of city utilities previously granted under pre-annexation utility extension agreement;
8. Shall be served with adequate utilities and services;
9. Adequate means of ingress and egress;
10. Shall serve the public use and interest; and
11. Must exist outside of flood control zone unless approved by Washington State Department of Natural Resources.

Note: This Tip Sheet does not include all codes and regulations that may be applicable to your project. The applicant is responsible for demonstrating compliance with adopted codes and regulations, whether or not described in this document.
